

LAWRENCE P. McDONALD, M. D.
ATLANTA, GEORGIA

April 23, 1967

Dear Samuel.

Enclosed is a recent clipping from The Miami Herald on new Peace Corps openings. It certainly is gratifying to know that ~~our~~ tax money will be used to help promote their tourist trade and festivals. Of course, then again, "the tough life along the Aegean Sea" must be something else.

Recently The Institute for American Democracy, Inc. put me on their mailing list. I thought you would

LAWRENCE P. McDONALD, M. D.

find their enquiry of interest. They seem to be anxious to make some report on "Birch charges". The letter says that they are "providing appropriate federal authorities with copies of your reply".

Well, they missed sending the return envelop but that was just as well anyway. . . . but since Dr. Littell has been so vocal against the HCUA (and must feel similarly about the S/SS), one wonders who the "appropriate federal authorities" are.

Best wishes,
Larry
