TROJAN HORSE IN AMERICAN EDUCATION

★ ★ ★ ★ ★ ★ ★

LEST WE FORGET

Patriotism means to stand by the C O U N T R Y. It does not mean to stand by the PRESIDENT or any other public official save exactly to the degree in which he himself STANDS BY THE COUNTRY.

— THEODORE ROOSEVELT

***Due to the programs and policies of the
NATIONAL EDUCATION ASSOCIATION
at least ONE MILLION students emerge from
high school each year as functional illiterates.***

Mr. Blumenfeld warns:

A child in an American public school is little more than a guinea pig in a psych lab, manipulated by a trained "change-agent." All of this is being done with billions of federal dollars in the greatest scam in human history. If Americans put up with this much longer, they will deserve the ruin they are paying for.

Born and educated in New York City, **Sam Blumenfeld** graduated from The City College of New York in 1950, studied in France for two years, then worked for ten years as an editor in the New York book publishing industry. In 1970 he began writing full-time and quickly earned a reputation for accurate reporting, objective scholarship, and refreshing candor in a subject area often befogged by professionalism. Of the six books on education he has authored, this latest is heralded as his finest.

Sam's writings have appeared in such diverse publications as *Esquire*, *Reason*, *Inquiry*, *American Opinion*, *Education Digest*, *Vital Speeches*, *Child & Family*, *Conservative Digest*, *Boston Magazine*, *The Reading Informer*, and others. He has taught in both public and private schools, including a private school for children with learning and behavioral problems.

— EDUCATION —

“Experience has shown that even under the best forms of (government), those entrusted with power have in time, and by slow operations, perverted it into tyranny; and the most effectual means of preventing this would be to illuminate, as far as applicable, the minds of the people at large.”

"The man who never looks into a newspaper is better informed than he who reads them; inasmuch as he who knows nothing is nearer to truth than he whose mind is filled with falsehoods and errors."

PATRONS

**While the NEA grabs for more power,
its programs produce illiteracy
and
deterioration of schools**

The NEA Says:

NEA will become a political power second to no other special interest group . . . NEA will organize this profession from top to bottom . . . with power unmatched by any other organized group in the nation.

— NEA Executive Secretary, Sam Lambert

Author Samuel Blumenfeld Says:

The NEA is a private union that wants the power of government to crush its private competition. It wants to own American education as its exclusive fief . . . its goals are political and social, not academic.

*The NEA favors sex education for children, gun control, decriminalization of marijuana, tax-financed abortion on demand, a nuclear freeze, the drafting of women, the ERA, and a weakened defense. It opposes a balanced federal budget, voluntary school prayer . . . it backs Marxist revolution in Central America. . . . **In short, for all practical purposes, the NEA might as well be the socialist party of America.***

*If the NEA has its way, it will be illegal for virtually anyone to teach anything in America without a license . . . **And who will control the licensing? Why, the NEA, of course!***
