Announcing a New Novel About a Treacherous Global Conspiracy

Project World Empire is a shocking story of a ruthless group of international bankers who are working secretly with the world's wealthiest corporate directors to control Earth's natural resources and all its inhabitants.

The members of this vast international conspiracy are responsible for assassinations, economic disasters and political manipulations.

One weekend, Mike Morgan, a dedicated journalist for *Global Affairs*, discovers their plot and mobilizes a committed group of freedom fighters to expose the insidious tyranny. It could be the last chance anyone on Earth has to stop Project World Empire!

Compelling reading for everyone concerned with the future of the free world.

AMERICANISM

The core of Americanism is found in our Declaration of Independence which states that men "... are endowed by *their Creator with certain unalienable Rights...*" These few words recognize the existence of God and the fact that the rights of personal freedom, private property, and freedom of movement come from God — *not government.*

No nation had ever begun with such a recognition. But we are headed down the road followed by most countries, and that road leads to total government — Fascism, Socialism, or Communism. *Let's change direction!*

PATRIOTIC PRIDE in the REAL AMERICA

As our republic prepares to enter its third century, one national newsweekly remains true to the promise of our heritage — *The Review Of The News*.

If you are tired of newsmagazines that constantly tear down America and push for bigger government, more permissiveness, for bussing and abortion and leniency toward criminals, then you should read *The Review Of The News*.

Three-month subscription — \$8.00, six-month subscription — \$15.00, and the regular rate of \$25.00 for the full 52 issues.

Since 1975,
we've had
answers to
important
questions all
conservatives
think about...

Just think of all that's happened in the last ten years: the rise of the New Right. . . President Reagan's historic wins in 1980 and 1984. . . the giveaway of the Panama Canal. . . the first Republican majority in the Senate in thirty years. . . the emergence of social issues like abortion, school prayer and busing. . . new national leaders like Jerry Falwell, Jack Kemp and Jeane Kirkpatrick.

And *Conservative Digest* has been at the cutting edge of every issue, surveying the American news scene and bringing you quick-reading digests of articles which cast light on the challenges we face—and point the way to restoring common sense, thrift and morality to government and society.

If you want to read and understand the conservative point of view, and be more informed about the key issues of the day, subscribe to *Conservative Digest* today. Or if you already subscribe, make a gift of *Conservative Digest*—a gift of important information and good reading. A one year subscription (12 issues) costs only \$20.

Fair enough? Then subscribe today.
